

Greenfylde Dog plays a game

Greenfylde Dog was playing a game where he had to describe where his friends Monkey and Bear were at school.

First, he spotted that Monkey was on the slide.

Bear was **inside** the caterpillar.
Can you spot him peeping out? You
may have to look very carefully.

Bear and Monkey were sat on the floor in the den shading from the sunshine.

Bear and Monkey were sat at the table pretending to have tea!

They were sat next to the scooter waiting to have a ride.

Bear was sat behind the wheel pretending to drive a racing car.

The friends were sat **between** the large pink flowers.

They even tried to hide **underneath** the bridge of the play equipment.

Tired from their game they sat in front of the colour den.

Can you try to find a way to be all the different positions that Bear and Monkey tried?
